About me

I am a passionate and dedicated individual with a strong foundation in both frontend development and data analytics. I enjoy turning complex problems into simple, beautiful, and intuitive solutions. With a continuous learning mindset, I thrive on creating impactful user experiences and data-driven insights.

Skills

- **Frontend Development:** HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS, Vite, Git, REST APIs
- **Data Analysis:** Python (Pandas, Numpy, Matplotlib, Seaborn), SQL (MySQL, PostgreSQL), Power BI, Excel, Tableau
- **Tools & Platforms:** GitHub, VS Code, Jupyter Notebook, Power BI, Postman

Projects

- Portfolio Website
- Developed a modern, responsive personal portfolio using React.js and Tailwind CSS with animated transitions via Framer Motion. Hosted on Vercel.

Experience

Frontend Developer Intern (June 2023 – June 2024)

1 year internship experience at **GOIP Global Services (Syrotech)**, where I worked as a Frontend Developer on network management solutions.

- **Project Focus:** Developed GUI interfaces for Optical Network Units (ONU) to ensure a user-friendly and responsive design.
- **Technologies Used:** JavaScript, ASP (Active Server Pages), and API integration.

- **Key Contributions:**
 - Utilized JavaScript extensively to build dynamic pages and real-time data updates.
 - Integrated RESTful APIs to fetch and display live device data dynamically.
 - Replaced static HTML with ASP for better backend communication and control.
 - Implemented dynamic UI components for a seamless and interactive user experience.
